

NARROGIN RACE & PACE INC TRADING AS

NARROGIN RACING

HELLO and welcome to another season. This year has flown and we are already half way through.

This year has seen some fantastic crowds on course. We have introduced and trialled some new fresh ideas and have some big dates coming up.

13/3 was our 1ife Race day. This was a fantastic initiative that we organised with Rural Community Health Services. On the day we hosted Mens Pit Stop, Find Cancer Early and Rural Health on course. The Sundowner after the last with Heath Black and Glenn Mitchell was well received and gave us the opportunity to hear their stories. We had a wonderful accommodation package from Sleep Inn, Albany courtesy of Great Southern Radio up for grabs as the gate prize.

Next Thursday the 11th April sees our first **Steak for Stakes Night**. Under \$20 will get you a steak sit down meal with all the trimmings. So if you haven't had a chance to pop down and try out the new caterers, why not have dinner with us – save on the cooking and washing up!!

On the new Caterers, Doug from Café 27 has taken on the catering and revamped the menu. We are trialling new ideas and the food is receiving rave reviews.

XXXX Gold Cup is just around the corner and we are fine tuning all that we have happening. We have got DJ Rev CB back by popular demand, along with Old MacDonalds Farm, kids games throughout the day and one of the top Face Painters coming. Of course we will have Fashions on the Fields for Ladies, Gents and Children with some fantastic prizes.

All the kids will receive a prize pack for having the courage to get up there, AND of course the top ten Adults will get a little something also. We have an AWESOME raffle for Cup day of a Corona esky stuffed with goodies.

We are calling for assistance. If you can spare 10 or 20 minutes at the end of the day/night we would appreciate the help. At the end of a meet we clean-up and pack away to cut costs and save \$\$\$\$. To help our already busy volunteers we are asking for any help. When we all rally together what can take an hour is done and dusted in half the time.

many hands make light work.

*****TRAINERS MEETING*****
